WHY NOW

A basis you cannot build

- **Entry basis:** at the guidance midpoint, about $56K per key for a masonry resort with a 650-seat convention center — against roughly $190K+ per key to build new in the region.
- **De-risked plans:** complete architectural, structural, MEP, civil and water-line plan set, approved by the fire department; Phase I ESA; 39 renderings; roof repairs complete.
- **Demand catalyst:** South32's funded Hermosa mine (~15 miles) plans 800–900 long-term jobs averaging about $90,000 a year, with first product targeted for 2028.
- **No new supply:** county hotel occupancy up 8.8% in Q1 2026 with zero rooms added; nearest full-service competitor is in Tucson, ~50 minutes north.
- **Clean deal:** all three parcels in one sale; buy as-is, or partner with the current owner to complete.
